

Dear Sir

I have been listening, and donating, to K-LOVE for the past year since they have begun broadcasting in the Raleigh, NC area. This station has benefited me with its selection of music and service announcements, and I have donated to its non-profit organization in order to continue hearing on the local broadcast airwaves.

I understand that the local airwaves may be opened to an LPFM station, and I am concerned that this will effect my local K-LOVE station. I am currently able to hear K-LOVE without interruption over a three-county area, and it has benefited me and my local friends with its content. K-LOVE continues to be a great community service to several location here in North Carolina as well as other parts of the country where it is broadcasted. I have introduced several families to K-LOVE and they enjoyed the music as well as commentators on the station.

In the future, if the FCC does change the allowable LPFM priorities, please do not remove the priority that K-LOVE currently has. Doing so would be a great loss of service to the community both locally, regionally & nationally to a lot of people, including me.

Thank you,  
Jerrold Pace
